Subject: Multi-species Conservation Strategy Weekly Report

This weekly report summarizes the Staff Team meeting held on Tuesday 3/16/99.

SCHEDULE: Internal drafts of most chapters were distributed by 3/12/99, although some sections cannot be completed until additional information is available. The most conspicuous missing pieces are awaiting resolution of policy issues (Scope of the Conservation Strategy and Assurances, both to be discussed at the 3/22/99 Policy Team meeting) or biological information that will be in Chapter 5 (due 3/26/99). The attorneys are meeting regularly to resolve process issues. If the geographic scope of the Conservation Strategy is expanded to include the surface water storage sites, it will almost certainly be necessary to develop a way to add the extra information about the new habitats and species after the Administrative Draft EIS/EIR is in final preparation.

NAME OF THE CONSERVATION STRATEGY: Multi-species Conservation Strategy is the newly adopted name for the Conservation Strategy, chosen to differentiate it from the Water Use Efficiency Program's water conservation strategy.

UP-COMING MEETINGS

The Staff Team will meet:

Tuesday	March 30, 1999	9 AM to Noon	Resources Building Room 804	Call-in Number (916)
657-4113				
Tuesday	April 20, 1999	9 AM to Noon	??
